

Pro-Xylane

Basic Information

- INCI: Hydroxypropyl Tetrahydropyrantriol
- CAS : 439685-79-7
- Main ingredient: Hydroxypropyl Tetrahydropyrantriol
- Recommended usage: 1-10%
- Recommended method: It is water-soluble, which can be directly added to the water and stirred evenly:

Product Description

This is a mixture of glycoproteins made of xylose. There is rich xylose in beeches. It is well known that it can stimulate the production of glycoaminoglycans (GAGs) and prevent the moisture loss in the skin, thus effectively improving the skin elasticity and slowing down the skin aging.

Technical Specifications

Test Items	Technical Specifications
Appearance	yellowish transparent liquid
Moisture (%)	35%
Solids (%)	≥30%
pH	6.0~8.0
Refractive index (20°C)	1.435-1.446

Product Purposes:

It is mainly used as the skin conditioner and antioxidant in cosmetics and skin care products.

Packaging and Storage

Packaging: According to customer needs.

Storage: Please store the product in a cool and dry place with a shelf life of two years.
